

WHAT YOU NEED TO KNOW ABOUT OVERDRAFTS AND OVERDRAFT FEES ON YOUR CONSUMER CHECKING ACCOUNT

An overdraft occurs when you do not have enough money in your checking account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your checking account.
2. We also offer overdraft protection plans, such as a link to your primary savings account and/or a line of credit, which may be less costly than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

➤ **What are the standard overdraft practices that come with my consumer checking account?**

We **do** authorize and pay overdrafts for the following types of transactions:

- Automatic bill payments including recurring debit card transactions

- ATM transactions
- Everyday debit card transactions

We **pay overdrafts at our discretion**, which means we **do not guarantee** that we will always authorize and pay any type of transaction. **If we do not** authorize and pay an overdraft, your **transaction will be declined or returned**.
